

Glasgow City Food Plan

1. Introduction

A multi-agency group, supported by the Glasgow Food Policy Partnership, has developed the Glasgow City Food Plan as a framework for the city. The plan aims to tackle a range of environmental, equity, health and well being challenges through improvements across the food system. The plan describes issues and challenges for a number of themes and proposes early actions. We are consulting on the plan until the end of December 2020 through this consultation and through on line events that will be published on Glasgow Food Policy Partnership's website.
